**REPLAY YOUR FLIGHT
RIGHT AFTER LANDING!**

IN THE PRESS:

"Spanish-born philosopher George Santayana coined the much-mangled aphorism that 'those who cannot remember the past are doomed to repeat it.' At the Dubai Airshow yesterday, a French company and a Swiss airline captain showed how pilots can **tap the lessons of the past** through their aircraft's flight data monitoring system."

Aviation Week

"A new solution from CEFA Aviation, CEFA Aviation Mobile Services (AMS), delivers feedback to aircrews right after landing using a tablet with a secure internet connection to depict selected flight segments. CEFA AMS converts wireless Flight Data Recorder (FDR) data into **a realistic animation in less than 10 minutes** after landing."

FLIGHT DEBRIEF

ALREADY A REALITY FOR 3000 PILOTS!

All **Nippon Airways** is the launch customer of CEFA AMS. **3000 pilots** have an easy access to an immediate and objective debriefing tool since March 2017.

88%+ of pilots find CEFA AMS useful for **performance review** & **safety enhancement**

Internal ANA survey on 300 pilots

"CEFA AMS could be the new style of **self-training** which is the most beneficial for airlines and pilots. I believe that this service gives opportunities of new communication within crews or between crew & instructor just after their flight. CEFA AMS contributes to the emergence of a **new culture of learning and communication.**"

Hideo MORIOKA, Senior Director, Safety Promotion & Flight Data Analysis, ANA

A PILOT'S VIEW

"As a Captain and flight instructor, I often need to **review some flights**, even when safety was not at stake. CEFA AMS allows debriefings to be based not only on memories. This enhances the dialog between instructors & young pilots. It is a quick and easy service, every pilot will be keen on using it. In the end, it improves **flight safety** and will revolutionize pilot training!"

Captain Pierre Wannaz, Swiss International Airlines

LINE TRAINING

EACH FLIGHT BECOMES A TRAINING OPPORTUNITY!

Leading company in flight data animation, CEFA Aviation launched **CEFA AMS** (Aviation Mobile Services), the 1st **cloud-based solution** in the world that makes videos of own flights available for each pilot on their tablet right after landing, anywhere, at anytime.

**"We do not learn from experience.
We learn from reflecting on experience."**

NASA study

Some of CEFA AMS **benefits**

- ✘ **objectivity** in crew debriefing based on factual data
- ✘ easy **self-reflection** tool & know-how sharing (eg airport familiarization)
- ✘ **daily improvement** of own proficiency
- ✘ better **understanding** of complicated situations
- ✘ extremely beneficial tool for **novice pilots**
- ✘ refocus of Evidence-Based Training (**EBT**) from a global point of view to an individual level
