

MEXICO'S FLAGSHIP AIRLINE ENHANCES FLIGHT DATA ANALYSIS WITH LEADING ANIMATION SOFTWARE CEFA FAS

WITH AEROMEXICO GROUP, CEFA AVIATION ACQUIRES A NEW TOP REFERENCE

Colmar, November 14th, 2018

- ✘ **CEFA FAS ([Flight Animation System](#)) is a software that recreates flights based on the data coming from the aircraft flight recorders, reproducing a view of the cockpit, the aircraft and its environment in 3D - among other features. It is already used by the safety and training departments of 80+ airlines and aircraft accident investigation offices on the five continents.**
- ✘ **Now the safety department of the Mexican flagship air carrier, [Aeromexico](#), chose to place its trust in CEFA Aviation to enhance its flight analysis.**

"An important advantage of CEFA FAS is that it is very reactive and quick. Flight data animation allows us to recognize and analyze a lot more information about previous flights in a very short time. When we only look at graphs from our Flight Data Monitoring system, it is difficult to see and interpret so many data at once. Now with CEFA FAS, we can live again the flight as if we were in the pilot's skin and make sure not to miss any detail," explains Captain Juan Carlos Gonzalez Curzio , SVP Flight Safety for Aeromexico.

CEFA FAS will animate the data coming from the 130+ aircraft of Mexico's global airline as well as its regional airline, Aeromexico connect. The fleet consists of Boeing 787 Dreamliners, 737 jet airliners and next generation Embraer 170 and 190 models. All the cockpits of these different models are represented with the most precise details in the CEFA FAS software - and many more, hence its numerous users. Founded in 1934, Aeromexico, which is a founding member of the SkyTeam airline alliance, carried 20.67 million passengers in 2017 to 43 destinations in Mexico and 49 international destinations from Mexico.

"CEFA FAS is strongly used on the American continent. Now we are happy to continue our mission : making the sky safer, by strengthening our presence in Latin America," says Xavier Cognac, VP Sales at CEFA Aviation. Dominique Mineo, CEO and founder of the company, to complete: "For 80 years, Aeromexico is being led by cutting-edge technology. This reflects CEFA Aviation's calling as well: constant innovation and continuous improvement to meet customers' demand."

About us

CEFA Aviation, a privately-held French company, enhances pilot training and flight safety by developing world-leading 3D animation software and services since 18 years. The innovative solutions developed by its experts recreate flights with high detail and accuracy based on data from aircraft flight recorders.

More than 80 major and regional airlines, cargo operators and investigative authorities on five continents are using the core software of the company, CEFA FAS (Flight Animation System) for pilot training and safety analysis.

Translating flight data into precise visualization requires in-depth understanding of the complexity of aircraft systems and software engineering. CEFA Aviation has been a pioneer in easy-to-use flight data animation since Dominique Mineo founded the company in 2000. Its long-lasting success is attributable to a passion for aviation and innovation, listening to its clients, and delivering gold-standard support. The CEFA Aviation team is headquartered in the Alsace region of France.

At the Dubai Airshow, CEFA Aviation unveiled a new breakthrough visualization tool to further enhance and personalize pilot training.

Grupo Aeromexico, S.A.B. de C.V. is a holding company whose subsidiaries provide commercial aviation services and promote passenger loyalty programs in Mexico. Aeromexico, Mexico's global airline, operates more than 600 scheduled passenger flights per day, with service to 43 destinations in Mexico and 49 international destinations from Mexico, including 22 in the United States, seven in South America, ten in Central America and the Caribbean, four in Europe, three in Canada, and three in Asia. Grupo Aeromexico's fleet of more than 130 aircraft includes Boeing 787 and 737 jet airliners and next generation Embraer 170 and 190 models.

In 2012, the airline announced the most significant investment strategy in aviation history in Mexico, to purchase up to 100 Boeing aircraft including 90 MAX 737 airliners and ten B787-9 Dreamliners.

As a founding member of the SkyTeam airline alliance, which is celebrating its 18th anniversary this year, Aeromexico offers customers more than 1,000 destinations in 177 countries served by the 20 SkyTeam airline partners rewarding passengers with benefits including access to more than 600 premium airport lounges around the world. Aeromexico also offers travel options with its codeshare partners Delta Air Lines, Avianca, Copa Airlines, El Al, Gol, Jet Airways, and WestJet with extensive connectivity to countries like the United States, Brazil, Canada, Colombia, and Peru.
