

ABX AIR AND ATI FLEET JOIN OMNI AIR ON USING WITH CEFA FAS

THREE OF THE ATSG GROUP'S SUBSIDIARIES WILL BE USING CEFA AVIATION'S FLIGHT DATA ANIMATION SOFTWARE

Colmar, July 6th, 2021

[Air Transport Services Group \(ATSG\)](#), currently the world's largest lessor of converted Boeing 767 freighter aircraft, airlines subsidiaries have chosen CEFA Aviation's Flight Data Animation Software [CEFA FAS](#), to animate the data of the Flight Data Recorder. The acquisition of CEFA FAS for [ABX Air](#) and Air Transport International ([ATI](#)) completes a new process of upgrading the technologies used to automate its subsidiaries' operations. In this case, Omni Air International ([Omni](#)) had already adopted CEFA Aviation's Flight Data Animation Software a couple of years earlier.

“Omni has demonstrated improvements in flight safety and reliability through the adoption of CEFA Aviation’s [Flight Data Animation Software](#),” said Ed Koharik, chief operating officer of ATSG. “I am confident that ABX Air and ATI will realize similar benefits to their industry-leading safety and reliability programs.”

"We are proud to help ABX Air and ATI ensure flight safety; it is a shared goal at the core of our companies," says Dominique Mineo, CEO & Founder of CEFA Aviation.

[CEFA FAS](#) animation software can process a variety of complex forms of recorded flight data and information and display it dynamically and synthetically in a form that can be understood and shared by a wide audience within the aviation industry.

About CEFA Aviation

CEFA Aviation, a privately held French company, enhances pilot training and flight safety, developing world-leading 3D animation software and services for the past 20 years. The innovative solutions developed by its experts recreate flights with high details and accuracy based on data from aircraft flight recorders.

More than 90 major and regional airlines, cargo operators, and investigative authorities on five continents are using the core software of the company, CEFA FAS (Flight Animation System) for pilot training and safety analysis.

Translating flight data into precise visualization requires an in-depth understanding of the complexity of aircraft systems and software engineering. CEFA Aviation has been a pioneer in easy-to-use flight data animation since Dominique Mineo founded the company in 2000. Its long-lasting success is attributable to a passion for aviation and innovation, listening to its clients, and delivering gold-standard support. The CEFA Aviation is headquartered in the Alsace region of France.

At the Dubai Airshow 2017, CEFA Aviation unveiled a new breakthrough visualization tool to enhance further and personalize pilot training: CEFA AMS. Additional information can be found at www.cefa-aviation.com/

About Air Transport Services Group, Inc. (ATSG)

ATSG is a leading provider of aircraft leasing and cargo and passenger air transportation and related services to domestic and foreign air carriers and other companies that outsource their cargo and passenger air lift requirements. ATSG, through its leasing and airline subsidiaries, is the world's largest owner and operator of converted Boeing 767 freighter aircraft. Through its principal subsidiaries, including three airlines with separate and distinct U.S. FAA Part 121 Air Carrier certificates, ATSG provides aircraft leasing, air cargo lift, passenger ACMI and charter services, aircraft maintenance services and airport ground services. ATSG's subsidiaries include ABX Air, Inc.; Airborne Global Solutions, Inc.; Airborne Maintenance and Engineering Services, Inc., including its subsidiary, Pemco World Air Services, Inc.; Air Transport International, Inc.; Cargo Aircraft Management, Inc.; and Omni Air International, LLC.
