

ANA Hits a Remarkable Milestone!

Over 500,000 flights replayed with CEFA AMS

Innovation in Training and Safety with CEFA AMS

Today, we're thrilled to spotlight the outstanding achievement of our esteemed client, ANA including ANA WINGS and AIR JAPAN subsidiaries. Their skilled pilots have reached an impressive milestone of **500,000 flight replays** using our innovative [CEFA AMS](#) service. This accomplishment is not just a number; it's a leap forward in aviation training and flight safety.

CEFA AMS: Revolutionizing Flight Training

CEFA AMS has been instrumental in providing advanced, data-driven insights for pilot training. By replaying flights, pilots at ANA have enhanced their situational awareness, decision-making skills, and operational proficiency.

This tool epitomizes our commitment to merging technology with practical applications to elevate aviation standards.

Dominique MINEO, CEO, CEFA Aviation
Ken SUGIURA, EVP, General Manager, Corporate Safety, ANA

A Partnership Driven by Safety and Excellence

This milestone underscores the successful partnership between our team and ANA. Their dedication to using cutting-edge tools like CEFA AMS showcases their commitment to safety and excellence in aviation. We're proud to support ANA in its continuous pursuit of excellence and innovation.

A Moment of Pride and Gratitude

We extend our heartfelt congratulations to the entire team at ANA. Your dedication to improving training and safety standards is inspiring. We look forward to continuing our journey together, pushing the boundaries of what's possible in aviation.

Let's keep aiming higher and flying safer!

About CEFA Aviation

[CEFA Aviation](#), a privately-owned French company, offers cutting-edge flight data animation solutions for enhancing commercial airline flight safety and pilot training, bolstered by 22 years of experience. The company's engineering and aviation experts have designed innovative solutions that simulate intricate and precise flights by utilizing data retrieved from aircraft flight recorders.

Over 100 major and regional airlines, cargo operators, and investigative authorities on five continents use the company's core application, CEFA Flight Animation Software ([FAS](#)), for pilot training and safety analysis. Translating flight data into precise visualization requires an in-depth understanding of aircraft systems and software engineering complexity. CEFA Aviation has pioneered easy-to-use flight data animation since Dominique Mineo founded the company in 2000. Its long-lasting success results from a passion for aviation and innovation, listening to clients, and delivering gold-standard support. CEFA Aviation is headquartered in Colmar, France.

At the Dubai Airshow 2017, CEFA Aviation unveiled a breakthrough visualization tool to enhance further and personalize pilot training: CEFA Aviation Mobile Services ([AMS](#)).
